Florida Power & Light Company
(Turkey Point Units 6 and 7)
Docket Nos. 52-040 and 52-041

Dear Administrative Judges:

The NRC Staff hereby notifies the Atomic Safety and Licensing Board and parties that approximately 50 comment letters received within the comment period on the draft of NUREG-2176, "Environmental Impact Statement for Combined Licenses (COLs) for Turkey Point Nuclear Plant Units 6 and 7" (EIS), were inadvertently not included in Appendix E to the final EIS. The staff is currently documenting these public comments and the NRC staff responses, including its determination of how, if at all, they might alter the analysis or conclusions in the FEIS, and anticipates this work will be completed within approximately two weeks. The staff will inform the Board and parties when this is complete.

Respectfully submitted,
