Para6.2.2 of NICSD Software V&V Plan (5B8K0038 rev.7) describes that for an anomaly found during the design verification, reviews of SSARs..., NICSD IV&V team has a responsibility for issuance of SCAR in accordance with AS-300A009.		<input type="checkbox"/> 再発生 REPETITIVE

原因 CAUSE			
IV&V チームは、V&V 計画書 Rev.0 を 2011 年 11 月 10 日発行した際に、AS-300A009 を参照した。その後、NQ-3009 が発行されたときに、NQ-1003 が改訂された。その際、AS-300A009 と NQ-3009 の記載は同等であったものの、IV&V チームは V&V 計画書への反映を行わなかった。			
The IV&V team referenced AS-300A009 when issuing the V&V Plan Rev. 0 on November 10, 2011.			
Later NQ-1003 was revised when NQ-3009 was issued in August, 2012. Then the IV&V team did not revise the V&V Plan to incorporate, even though descriptions of NQ-3009 and AS-300A009 were equivalent.			
提案処置内容 PROPOSED DISPOSITION			
IV&V チームは、是正処置要領として AS-300A009 の代わりに NQ-3009 を参照するために、NICSD V&V 計画書を改訂する。			
The IV&V team revises the NICSD Software V&V Plan to refer to NQ-3009 in place of AS-300A009 as the corrective action procedure.			
提案是正処置 (影響範囲を含む) PROPOSED CORRECTIVE ACTION (INCLUDING EXTENT OF CONDITION)			
NQ-3009 の発行時に AS-300A009 と NQ-3009 の差分評価が実施され、発行後も AS-300A009 の改訂の NQ-3009 への反映が実施されている。そのため、AS-300A009 と NQ-3009 の記載は同等であり、V&V 計画書の参照図書を AS-300A009 から NQ-3009 に変更しても、影響ないことを確認した。よって、是正処置としては、V&V 計画書の参照図書に於ける AS-300A009 から NQ-3009 への変更について教育だけ実施する。			
When NQ-3009 was issued, the differential evaluation between AS-300A009 and NQ-3009 was implemented (see attachment-1). After the issuance of NQ-3009, revisions of AS-300A009 have been reflected to NQ-3009 (see attachment-2). Because descriptions of AS-300A009 and NQ-3009 are equivalent, there is no influence by the change of the reference document from AS-300A009 to NQ-3009. Therefore the IV&V Lead provides indoctrination to the V&V team with regard to NQ-1003 and NQ-3009 as a corrective action.

是正処置依頼要領(NQ-3009)が 2012 年 8 月に発行された際、NQ-3009 の参照規程を AS-300A009 から NQ-3009 に変更しなかった。"Significance level criteria guideline"と AS-300A009 の Appendix-A は同等の内容ではあった。 添付参照 When the "Corrective Action Request Application Procedure" (NQ-3009) was issued in August, 2012, the reference Standard in NQ-3019 was not changed from AS-300A009 to NQ-3009, even though "Significance level criteria guideline" of NQ-3009 and Appendix-A of AS-300A009 were equivalent description. 是正処置部門の記載欄 TO BE COMPLETED RECIPIENT 原因 CAUSE  Since this CAR is classified as recommendation, this is N/A.					
提案処置内容 PROPOSED DISPOSITION  The current NED V&V Plans are appropriate for the past V&V activities. However, the IV&V Team will revise the NED PRM V&V Plan (FPG-PLN-C51-0006 Rev.4) and OPRM V&V Plan (FA32-3709-0001 Rev.3) according to the recommendation. In the case of NED, Section 7.1.1 corresponds to "problems found in NED activities." The revised V&V Plans will clarify that Section 7 applies to base-lined documents, and add a notice to Section 7 that non-base-lined documents anomalies are controlled in accordance with Section 4.6.1 "Verification" using Design Verification Report and in accordance with Section 5.1.3 "Interface with NICSD" using Vendor generated Document Check list. The revision of V&V Plans will not affect the past V&V activities because the revision will only clarify the actual V&V activities not requiring further V&V activities. NED V&V Team has not the responsibility of any code review and testing which are described in Sections 5.1.1 and 7.1.2 of NICSD V&V Plan, therefore it is not necessary to revise for those activities.
