

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

November 28, 2016

MEMORANDUM TO: Chairman Burns
Commissioner Svinicki
Commissioner Baran

FROM: William M. Dean, Director /RA/
Office of Nuclear Reactor Regulation

SUBJECT: UPDATE TO RENEWAL OF FULL-POWER OPERATING LICENSE
FOR FERMI 2

By memorandum dated November 9, 2016 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML16270A270), I informed the Commission of the U.S. Nuclear Regulatory Commission (NRC) staff's intent to issue the Renewed Facility Operating License No. NPF-43 for Fermi 2 (at Enrico Fermi Nuclear Generating Station) on November 29, 2016. However, on November 21, 2016, Citizens' Resistance at Fermi 2 (CRAFT) submitted a motion to reopen the closed record in the Fermi 2 license renewal proceeding and file a new contention.¹

The purpose of this memorandum is to inform the Commission that the NRC staff will not issue the Fermi 2 renewed license on November 29, 2016. Instead, the NRC staff will submit a SECY paper to the Commission in the next few weeks with the staff's recommended path forward.
