NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 5, 2016

ALL AGREEMENT STATES, VERMONT, WYOMING

OPPORTUNITY TO COMMENT ON DRAFT REVISIONS TO OFFICE OF NUCLEAR MATERIAL SAFETY AND SAFEGUARDS PROCEDURES MANAGEMENT DIRECTIVE 5.10 AND SA-111, "FORMAL QUALIFICATIONS FOR INTEGRATED MATERIALS PERFORMANCE EVALUATION PROGRAM (IMPEP) TEAM MEMBERS AND TEAM LEADERS" (STC-16-090)

Purpose: To provide the Agreement States with an opportunity to comment on the proposed revisions to the Office of Nuclear Material Safety and Safeguards (NMSS) (formerly the Office of Federal and State Materials and Environmental Management (FSME) Programs) Management Directive 5.10 and NMSS Procedure SA-111, "Formal Qualifications for IMPEP Team Members and Team Leaders."

Background: This Management Directive and SA procedure are being revised to reflect the current NMSS organization (post FSME merger), and to update with the current training requirements and courses for those individuals participating as team members and team leaders in the Integrated Materials Performance Evaluation Program (IMPEP) reviews. The NMSS SA-111 procedure is replacing Handbook 5.10 in order to facilitate future revisions more easily and frequently.

Discussion: Enclosed for your review and comment are draft revisions to Management Directive 5.10 and NMSS Procedure SA-111, "Formal Qualifications for IMPEP Team Members and Team Leaders." The requirements from Handbook 5.10 were included in SA-111 since both the Handbook and the SA procedure were titled the same and contained some redundant provisions. The current draft revisions to SA-111 are provided in red line strikeout format from the last revision in February 2007 and also a clean (readable) copy. We would appreciate receiving your comments by January 6, 2017.¹
