SUBJECT: LIGA PUERTORRIQUEÑA CONTRA EL CÁNCER, LICENSE TERMINATION,
MAIL CONTROL NO. 591832

Dear Lcdo. Bustelo Sanclemente:

Please find enclosed Amendment No. 31, terminating License No. 52-13471-01 as requested by your NRC Form 314 dated August 30, 2016 with supporting documents provided in October. This termination is being issued in accordance with the requirements of the applicable NRC Termination Rule in 10 CFR 30.36 and 10 CFR 40.42.

In addition, we understand the following:

1. As confirmed in our 2016-001 inspection, you have not possessed sealed sources under License No. 52-13471-01 permitted by 10 CFR 35.400 since 2013.
2. You also maintain License No. 52-13471-03 which authorizes the possession of 10 CFR 35.200 materials and cesium-137 sealed sources in the same facilities. We further understand that you no longer use the 10 CFR 35.200 materials, cesium-137 sealed sources, or 10 CFR 35.65 sealed sources; have no plans to conduct PET or manual brachytherapy; and are planning to transfer the sealed sources to a waste broker. As a reminder, you must maintain an NRC license while in possession of these materials and sources even if you no longer use them. Please submit to the NRC a license amendment request for a storage only license for License No. 52.13471-03 if you no longer intend to "use" the licensed material.

An environmental assessment for this action was not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

In accordance with 10 CFR 2.390, a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web Site at <http://www.nrc.gov/reading-rm/adams.html>.
