Subject: Additional address change associated with License number 44-14149-02 where licensed material may be stored.

Greetings Mr. Reichard;

I am requesting that the license noted above be amended to reflect a new address where licensed material may be stored.

Section 10 of the current licensed indicates where licensed material may be stored. I am requesting this new address be **added** to section 10 of the license:

VTrans Southwest Region Construction Laboratory
84 US Route 4
Mendon, VT 05701

The additional address effective date will be the date of acceptance of this amendment.

Additionally, I am requesting that these addresses below, be deleted from section 10 of the license:

Dist. 3, 122 State Place, Rutland, Vermont
235 Joshua Place, Rutland, Vermont

To the best of my knowledge, there has been no failing leak tests with any of the VTrans portable nuclear moisture/density gauges, during my tenure at the Materials Testing and Certifications Laboratory and while I have been the RSO.

The deletion of the addresses effective date will be the date of acceptance of this amendment. Would you please send me a response that you have received this amendment request and how long you think it will take to be approved?

592406

IN/CC/TCN MATERIALS-002

Regards,

11/08/16

John Domey, RSO

This is to acknowledge receipt of your: ☒ Letter and/or ☐ Application Dated: 11/08/2016

The initial processing, which included an administrative review, has been performed.

☒ Amendment ☐ Termination ☐ New License ☐ Renewal

☒ There were no administrative omissions identified during our initial review.

☐ This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.

☐ Your application for a new NRC license did not include your taxpayer identification number. Please complete and submit NRC Form 531, Request for Taxpayer Identification Number, located at the following link: <http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>
Follow the instructions on the form for submission.

☐ The following administrative omissions have been identified:

--

Your application has been assigned the above listed MAIL CONTROL NUMBER. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
