Hi Jana,

I am sending you notification of the status of the license amendment sent in by Mr. Kayser last month. This formality is mostly for the Agency and my action tracking, but it is an essential component of our amendment processing and assures you that the application is satisfactory and moving on through the review process. I will be in touch to discuss a formal Request for Additional Information (RAI) I'll be sending. The idea is to give you a heads up of what will be coming in the mail regarding the amendment request. Let me know of windows of opportunity you might have to discuss either Thursday or Friday morning.

The NRC has performed an acceptance review of your submittal dated November 14, 2016, 'Amendment Request for License SNM-362 (Docket No.: 70-398,' and found it acceptable for further review. We have opened Cost Activity Code (CAC) Number L60423 for the review of this action.
