December 5, 2016

Mr. Scott P. Murray
Manager, Facility Licensing
Global Nuclear Fuel – Americas, L.L.C.
3901 Castle Hayne Road
P.O. Box 780
Wilmington, NC 28402

SUBJECT: APPLICATION FOR RAJ – II TRANSPORTION PACKAGE– ACCEPTED FOR REVIEW

Dear Mr. Murray:

By letter dated September 30, 2016, as supplemented November 28, 2016, you submitted an application for amendment of the Model No. RAJ–II transportation package, Certificate of Compliance No. 9309. You requested approval of changes made to reflect the addition of a GNF3 10x10 fuel assemblies. Staff performed an acceptance review of your application to determine if the application contains sufficient technical information in scope and depth to allow the staff to complete the detailed technical review.

This letter acknowledges acceptance of your application. The application appears to contain the information needed for our technical review. We have established a schedule for the review. We have established a schedule for the review and estimated that the staff may need approximately 400 hours to complete its review. The schedule allows for staff to issue a Request for Additional Information (RAI) in February 2017 and a CoC and Safety Evaluation Report in April 2017, based on the applicant responding to RAIs in March 2017. If no RAI is needed, and based on the staff's evaluation, the approval may be issued at approximately that time. In general, no additional changes to the application should be submitted except for changes resulting from your response to an RAI.

If you have any questions regarding this matter, please contact me at 301-415-5253.

Sincerely,

/RA/

Huda Akhavannik
Project Manager
Division of Spent Fuel Management
Office of Nuclear Material Safety
and Safeguards

Docket No. 71-9309
TAC No. L25154
