Ty,

We got it.

It's another 95.17 update. Carole has it and will get back to me after the holidays and let me know if we need to do anything with it. It looks like they don't want to clear the guy we think they should so they may be doing a chair shuffle. Carole will figure it out.

Subject: GNF FOCI Update

Hi Doug,
I received another FOCI update from GNF. The accession number is ML16351A429 for the package. The specific attachment is ML16351A431. The CAC for the review is L33433. No rush for this, but thought I'd get it off to you sooner than later.

Merry Christmas

Ty
