Beaver Valley Power Station, Unit No. 1
Docket No. 50-334, License No. DPR-66
Supplement to Revise Proposed Alternative Number (CAC No. MF8854)

By letter dated October 24, 2016 (Accession No. ML16298A289), FirstEnergy Nuclear Operating Company (FENOC) requested approval of a proposed alternative, number VRR5, to perform an as-found set-pressure test of the residual heat removal system relief valve at the next scheduled maintenance and refueling outage. The proposed alternative number specified in that submittal is hereby changed from VRR5 to VRR6.

FENOC continues to request approval of the proposed alternative by October 27, 2017. There are no regulatory commitments contained in this submittal. If there are any questions or if additional information is required, please contact Mr. Thomas A. Lentz, Manager – Fleet Licensing, at (330) 315-6810.

Sincerely,

Marty L. Richey
