Subject: RE: Time Extension Request

Importance: High

Mr. Morehead, I have discussed the reason for your extension request with division management and we are granting a one week extension to the response time for the choice letter.

Sincerely,

Ray Kellar

Subject: [External_Sender] Time Extension Request

Good Afternoon Ray!

As we spoke on the phone I would like to request a 1 week extension on my response to the NRC field audit findings and NRC Inspection Report 150-00026/2016-001. My reasoning for a request is that I did not receive the original request in the mail, and then also had a difficult time finding the email request letter sent at a later date. I am simply asking for this request so that I can have the proper amount of time to give a detailed and fully accurate response to the NRC.

Please let me know if this is acceptable.

Thank you in advance!
