General Comment

To Whom it Concerns:

IAEA and NRC's regulations and standards must be strengthened to protect workers, the safety and health of the public and the environment. We need the strongest regulations possible that protect all citizens of this world.

Please make all of your regulations more secure and strengthen all of your standards...regulations should protect the people, not the nuke gang! Always take the high road, protect the citizens first, make them your highest priority.

Regards,

D. Muhlbeier
