3. Entergy Nuclear Operations, Inc. and Exelon Generation Company, LLC letter to U.S. Nuclear Regulatory Commission Document Control Desk, "Response to Request For Additional Information Regarding Application for Order Approving Transfer of Renewed Facility Operating License and Proposed Conforming License Amendment," dated November 29, 2016

**Subject: Supplemental Information Regarding Application for Order Approving
Transfer of Renewed Facility Operating License and Proposed Conforming
License Amendment**

In accordance with Section 184 of the Atomic Energy Act of 1954, as amended (the "**Act**"), 10 CFR 50.80, 10 CFR 72.50, and 10 CFR 50.90, Entergy Nuclear FitzPatrick, LLC and Entergy Nuclear Operations, Inc. (collectively referred to as "**Entergy**") and Exelon Generation Company, LLC ("**Exelon Generation**") requested written consent approving the transfer of the James A. FitzPatrick Nuclear

Power Plant Renewed Facility Operating License No. DPR-59 and the transfer of the generally licensed FitzPatrick Independent Spent Fuel Storage Installation, from Entergy to Exelon Generation (Reference 1).

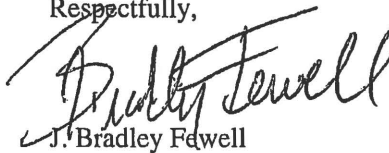

In the Reference 2 letter, Exelon Generation provided 30 days prior notification of changes to the corporate structure of its subsidiary companies through which the non-qualified nuclear decommissioning trust fund for each reactor owned and/or operated by Exelon Generation is managed and controlled. In Reference 2, Exelon Generation explained that it intends to eliminate the subsidiary companies created for each reactor non-qualified fund and merge those companies into the direct parent company, Exelon Generation Consolidation, LLC. After this internal merger, Exelon Generation Consolidation, LLC will be the sole surviving entity and will manage and control the non-qualified nuclear decommissioning trust fund for each of the reactors.

The purpose of this supplemental information is to update previously submitted information provided in Reference 3. In the November 29, 2016, RAI response (at page 2) Exelon Generation explained that it would take certain actions to facilitate the transfer of the assets of the FitzPatrick nuclear decommissioning trust fund at closing, including “to add a non-qualified fund **and non-qualified fund limited liability company for FitzPatrick . . .**” (Emphasis added). In light of the restructuring noted in Reference 2, and assuming there are no NRC concerns with Reference 2, Exelon Generation no longer plans to add a non-qualified fund limited liability company for FitzPatrick. Instead, the funds for the FitzPatrick non-qualified decommissioning trust fund will be managed and controlled by the existing entity, Exelon Generation Consolidation, LLC. In summary, nothing will change with respect to Exelon Generation’s plans for the FitzPatrick qualified unit and non-qualified unit funds, as described in Reference 3, other than a separate non-qualified fund limited liability company for the FitzPatrick reactor will not be created or required.

There are no regulatory commitments contained in this response.

Please contact David P. Helker (Exelon Generation) at 610-765-5525 (David.Helker@exeloncorp.com) or Bryan Ford (Entergy) at 601-368-5516 (bford@entergy.com) if you have any questions or require any additional information regarding this response.

Respectfully,

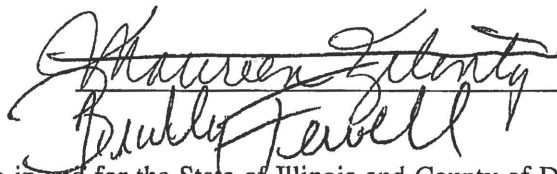

J. Bradley Fewell
Senior Vice President Regulatory Affairs and
General Counsel
Exelon Generation Company, LLC

City of Washington
~~STATE OF ILLINOIS~~ :
District of Columbia
~~COUNTY OF DUPAGE~~ :

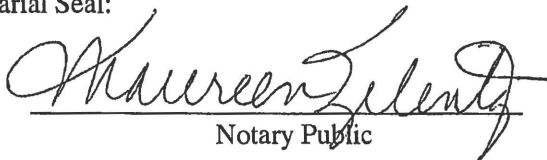

To wit:

I, J.
