Oyster Creek Nuclear Generating Station
Renewed Facility Operating License No. DPR-16
Docket No. 50-219

Subject: Oyster Creek Nuclear Generating Station (OCNGS) 1R26 Refueling Outage Inservice Inspection (ISI) Owner's Activity Report Extension

This letter is to inform you that the Exelon Generation Company, LLC (EGC) Oyster Creek Nuclear Generating Station (OCNGS) 1R26 Refueling Outage Inservice Inspection (ISI) Owner's Activity Report, which is required to be submitted in accordance with 10 CFR 50.55a, "Codes and Standards", and the American Association of Mechanical Engineering (ASME) Boiler and Pressure Vessel Code Section XI, Article IWA-6200, Paragraph IWA-6230, will not be submitted by the 90 day due date. The station's Refueling Outage 1R26 ended on October 13, 2016, making the report due on January 11, 2017.

Several Work Orders and associated NIS-2 forms are still being processed by the station with fleet support. An issue report has been entered in our corrective action process to address gaps in our ability to issue this report in a timely manner. Oyster Creek Generating Station expects that these forms will be processed and a complete summary report will be submitted by February 10, 2017.

Should you have a question concerning this letter, please contact Mr. Michael McKenna, Regulatory Assurance Manager, at (609)-971-4389

Sincerely,

A handwritten signature in cursive script that reads "Gary L. Stathes".
