MEMORANDUM TO: William Gott, Chief
Fuel Cycle and Transportation Security Branch (FCTSB)
Division of Security Policy (DSP)
Office of Nuclear Security and Incident Response (NSIR)

FROM: Brian Zaleski, Fitness For Duty Specialist **/RA/**
NSIR/DSP/FCTSB

SUBJECT: PUBLIC MEETING (WEBINAR) SUMMARY REGARDING
ANNUAL FITNESS-FOR-DUTY (FFD) REPORTING OF DRUG
AND ALCOHOL INFORMATION AND ELECTRONIC
REPORTING SUBMISSION FORMS

The U.S. Nuclear Regulatory Commission (NRC) staff held a Category 1 public meeting by webinar on December 15, 2016, with stakeholders to discuss the annual FFD program reporting requirements, guidance, and use of electronic reporting (e-reporting) forms for drug and alcohol testing conducted pursuant to Title 10 of the Code of Federal Regulations (10 CFR), Part 26, "Fitness for Duty Programs." The purpose of this webinar was to prepare licensees and other entities for the upcoming reporting of calendar year 2016 drug and alcohol testing information.

The NRC staff described the 10 CFR 26.417 and 10 CFR 26.717 annual FFD program performance reporting requirements and reviewed features of the two e-reporting forms used to provide this drug and alcohol testing information to the NRC (NRC Form 890, Single Positive Test Form; NRC Form 891, Annual Reporting Form for Drug and Alcohol Tests). The NRC staff then reviewed common reporting errors observed during previous reporting years, discussed best practice suggestions, and provided guidance on completing e-reporting forms for a variety of test result scenarios. Finally, the NRC staff highlighted pending changes to the e-reporting forms during a live demonstration.

The following documents were developed, placed in the NRC's Agencywide Documents Access and Management System (ADAMS), and used for the public meeting:

- Meeting announcement, ADAMS accession number ML16335A163
- NRC slide presentation, ADAMS accession number ML16349A565

Enclosure 1 lists information on those individuals who attended the webinar. NRC staff did not obtain information from individuals who only participated by teleconference.

One question was received during the webinar regarding when the updated e-forms would be available for use. The NRC staff was unable to provide a definitive date at that time. The Office of Management and Budget approved the update e-forms for use on December 29, 2016. These forms were placed in ADAMS under accession numbers ML17013A578 (NRC Form 890) and ML17013598 (NRC Form 891).
