Subject: Request for TCEQ review of draft Environmental Assessment/Finding of No Significant Impact for modified NRC Order for WCS
Date: Wednesday, December 21, 2016 1:55:47 PM
Attachments: [Draft EA-FONSI WCS modified Order.docx](#)

Dear Mr. Maguire:

Please find attached a draft Environmental Assessment / Finding of No Significant Impact (EA/FONSI) prepared by the NRC staff to document its preliminary environmental evaluation of a Waste Control Specialists (WCS) request to modify the NRC Order exempting WCS from licensing under 10 CFR Part 70. The NRC staff requests your agency's review and comment on the draft EA/FONSI.

Given the pre-decisional nature of the draft EA/FONSI, the NRC requests that distribution of the document be limited to those in your agency who are involved in the review and that the document not be made publicly available without prior NRC permission. The NRC staff asks that the results of the TCEQ's review be provided within 30 days of this email.

If you have any questions about this matter, I can be reached at 301-415-6954.

Thank you,
James Park, Project Manager
