Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

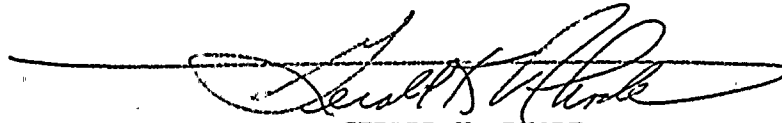

Dear Mr. Lear:

This letter is to acknowledge receipt of your December 29, 1975 letter proposing revised Technical Specifications to preclude plant operation with cracked control rod drive collet housings.

Upon review of those specifications, we have found them to be generally acceptable and have no objections to their incorporation into our Technical Specifications.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
