Operating Reactors

Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Dear Mr. Lear:

It has been determined that it is necessary to clarify a reference made in NEDO-21466. This report was provided to the Nuclear Regulatory Commission as Attachment B to the Application for Amendment to Operating License dated December 3, 1976.

In Section 6.3.2.4, "Loss of Coolant Accident," the first sentence should be changed to state that the analyses given in Reference 4 are applicable to this reload. On Page 8-1, an additional reference should be added as follows: Niagara Mohawk Power Corporation to United States Nuclear Regulatory Commission, "Application for Amendment to Technical Specifications," dated October 31, 1975 and supplemented November 3, 1975.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
