Attn: Mr. George Lear, Chief
Operating Reactors
Branch #3

Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

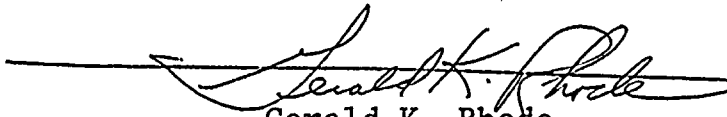

Dear Mr. Lear:

Mr. R. R. Schneider's letter of March 1, 1977 stated that the details of our feedwater nozzle ultrasonic examination procedures would be provided to the Nuclear Regulatory Commission by March 21, 1977. However, we are still studying the adequacy of the procedures to be used in these examinations. Consequently, it is not possible to submit the required details at this time.

Feedwater nozzle ultrasonic examinations will be performed after cladding removal. This submittal will be made prior to these examinations, now anticipated to begin on April 20, 1977.

Sincerely,

NIAGARA MOHAWK POWER CORPORATION
