Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Dear Mr. Lear:

Regulatory Docket File

Your letter of January 18, 1977 stated that, based upon the Nuclear Regulatory Commission's preliminary review, a refueling accident inside the reactor containment building and its effects on the potential site boundary radiation exposures has been considered during the licensing review for the Nine Mile Point Unit 1 facility.

Upon review, we also conclude that such an accident has been considered and potential site boundary radiation exposures would be within 10 CFR Part 100 guidelines.

Sincerely,

NIAGARA MOHAWK POWER CORPORATION

GERALD K. RHODE
Vice President - Engineering
