Dear Mr. Goller:

This letter updates the refueling information contained in the Nine Mile Point Nuclear Station Annual Report of Operation for January 1, 1975 thru December 31, 1975.

Our present plans provide for a plant shutdown on March 6, 1977 and start-up, following the refueling, on approximately May 29, 1977.

The reload license amendment submittal and supporting information was provided on December 3, 1976 in accordance with the requirements of your June 18, 1975 letter.

Very truly yours,

Gerald K. Rhode
