Docket Nos. 50-219, 50-237, 50-249, 50-254,
50-265, 50-220, 50-245, 50-263, 50-293

Dear Mr. Case:

Thank you for your letter of October 5, 1973 advising that all previous and future non-proprietary data will be served on us. Would you also notify us of all allegedly proprietary communications, identify the basis for the claim and when action is to be taken on the claim? This will enable us to present arguments or data contrary to the proprietary assertion and also fully inform us of all relevant matters.

In addition, pursuant to 10 CFR Part 2, §2.790(b)(2), we are entitled to see all data so long as appropriate protective agreements are signed. Please request all those who make the proprietary claim to send us copies of the agreement so we can sign it and then place us on the simultaneous service list for all data.

Thank you for your prompt attention to this matter.

Sincerely,

Anthony Z. Roisman

R. S. Boyd, Assistant Deputy Director
Directorate of Licensing
U. S. Atomic Energy Commission
Washington, D. C. 20545

Dear Mr. Boyd:

Pursuant to our discussion earlier today regarding Mr. Roisman's request for proprietary documents on fuel densification, I called Mr. Roisman to discuss the subject. I informed him that to date the only proprietary documents that we have filed are Supplements 1 - 5 to NEDM-10735 and that these supplements had previously been furnished to him in connection with the Vermont Yankee proceeding. I further informed him that he could consider the consent given in the Vermont Yankee proceeding to encompass the BWR fuel densification reviews initiated by the Staff and by his 9-plant petition.

As you are aware, we intend to file a new analytical model on gap conductance to include fuel densification effects. We will at that time furnish a copy of our filing to Mr. Roisman pursuant to appropriate agreement regarding proprietary materials, if any. He has indicated his agreement with this course of action.

Sincerely,

John K. Restricks, Counsel
