Gentlemen:

SUBJECT: NINE MILE POINT NUCLEAR STATION - UNIT 2 REACTOR BUILDING
POLAR CRANE

In your letter to the Nuclear Regulatory Commission staff dated July 20, 1977 you enclosed a report describing the Nine Mile Point Nuclear Station - Unit 2 reactor building polar crane. You stated that the submittal was in response to Section 9.1.2 of our Safety Evaluation Report for the facility. In that report we required that you submit the design before construction.

We have reviewed the information provided in your July 20, 1977 letter and conclude that it adequately addresses the requirement set forth in the Safety Evaluation Report. We will of course review the detailed design of the reactor building polar crane at the operating license stage.

If you have any questions regarding this matter please contact the staff's assigned Licensing Project Manager immediately.

Sincerely,

Steven A. Varga, Chief
Light Water Reactors Branch 4
Division of Project Management
