Director of Nuclear Reactor Regulation  
Attn: Mr. Benard C. Rusche, Director  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Re: Nine Mile Point Unit 2  
Docket No. 50-410

Dear Mr. Rusche:

Mr. Varga's September 10, 1976 letter requested information regarding potential clogging of the Nine Mile Point Unit 2 Revetment Ditch System. On October 8, 1976, this matter was reviewed with members of the Nuclear Regulatory Commission staff.

Based on the clarification provided during the discussion, a study has been initiated to investigate clogging potentials at the Nine Mile Point site. A report will be provided to the Commission after the study has been completed.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
