## NIAGARA MOHAWK POWER CORPORATION

NIAGARA  MOHAWK300 ERIE BOULEVARD WEST  
SYRACUSE, N. Y. 13202

December 18, 1973

Mr. A. Giambusso  
Deputy Director for Reactor Projects  
Directorate of Licensing  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

Dear Mr. Giambusso:

Re: Nine Mile Point Unit 2  
Docket No. 50-410

Your letter of October 10, 1973, described acceptable measures that should be taken to accommodate anticipated transients without scram. The attachment (WASH-1270) to your letter indicates that Nine Mile Point Unit 2 is in category "B". It is Niagara Mohawk's position that this categorization is appropriate. A detailed report addressing these transients will be submitted by October 1, 1974. This report will describe design provisions contemplated and contain sufficient analyses to demonstrate that consequences of these transients will be acceptable.

Very truly yours,

Philip D. Raymond  
Vice President-Engineering

GKR/vk
