Docket No. 50-220

Jorsey Central Power & Light Company
Oyster Creek Nuclear Generating Station
Provisional Operating License No. DPR-16

TO ALL RECIPIENTS:

By letter dated December 11, 1975, Amendment No. 11 and Change No. 27 on Steam Vent Clearing Phenomenon and Steam Quenching Vibration Phenomenon were issued. Through Administrative error the Change Number in Paragraph 2.(2) of the amendment was incorrectly stated as "Change No. 11" but should be "Change No. 27". The cover page for the changes to the Technical Specifications is incorrect and a new page is enclosed for replacement. Also, the number "27" was not inserted by the diagonal lines on the replacement pages for the Technical Specifications. Please make the corrections as noted.
