Re: Nine Mile Point Unit 1  
Docket No. 50-220

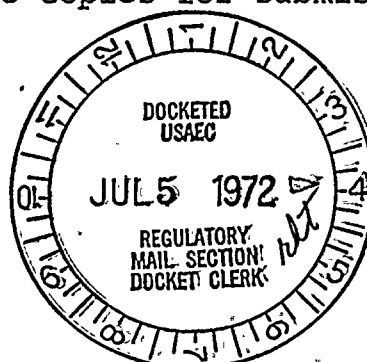

Dear Mr. Muntzing:

As counsel for Niagara Mohawk Power Corporation, the licensee in the above-captioned proceeding, we hereby transmit the following:

(1) Three (3) originals and twenty-five (25) copies of an application entitled "Application to Convert Provisional Operating License to Full-Term Operating License or Alternatively to Extend the Termination Date of the Provisional Operating License";

(2) Seventy (70) copies of the application's exhibit entitled "Technical Supplement to Application for Conversion from Provisional Operating License to Full-Term Operating License"; and

(3) Two Hundred (200) copies of an Environmental Report on Nine Mile Point Unit 1. Applicant has prepared and has ready for submission an additional one hundred (100) copies of its Environmental Report for this unit. At the request of the Division of Reactor Licensing, Applicant is holding these copies for submission later when requested.

RW  
3646

The service of the foregoing application, its exhibit and the Environmental Report is being made personally by a representative of the Applicant. The service is being made upon:

Mr. Robert P. Jones  
Supervisor, Town of Scriba  
R.D. #4  
Oswego, New York 13126

Mr. Donald I. Gleason  
Chairman  
County Legislature  
County Office Building  
46 East Bridge Street  
Oswego, New York 13126

Upon completion of this service an Affidavit of Service will be filed with the Commission.

Very truly yours,

LeBOEUF, LAMB, LEIBY & MacRAE

BEFORE THE UNITED STATES  
ATOMIC ENERGY COMMISSION

In the Matter of )

Niagara Mohawk Power Corporation )  
(Nine Mile Point Nuclear Station, )  
Unit 1) )

Docket No. 50-220

APPLICATION TO CONVERT PROVISIONAL OPERATING  
LICENSE TO FULL-TERM OPERATING LICENSE OR  
ALTERNATIVELY TO EXTEND THE TERMINATION DATE  
OF THE PROVISIONAL OPERATING LICENSE

Niagara Mohawk Power Corporation (Niagara Mohawk or  
Licensee) hereby applies to the United States Atomic Energy  
Commission (Commission)

1. To convert its Provisional Operating License  
to a Full-Term Operating License; or

2. In the alternative, if the aforementioned  
application is not accepted for filing, to extend the  
termination date of the Provisional Operating License  
for such time as may be required for the Licensee to  
perfect the filing of the Application to Convert the  
Provisional Operating License to Full-Term Operating  
License and have that perfected application fully  
processed and determined.

In support of its Application to Convert the  
Provisional Operating License to a Full-Term License, Niagara  
Mohawk states as follows:

1. It filed its Application for Licenses with  
the United States Atomic Energy Commission (Commission)  
on April 1, 1964. On April 12, 1965, it obtained  
Construction Permit No. CPPR-16.

2. Upon completion of construction, Licensee  
obtained a Provisional Operating License No. DPR-17,  
dated August 22, 1969, which authorized possession,

use and operation of its Nine Mile Point nuclear facility at thermal power levels up to 1580 megawatts. By amendment of that license, dated April 14, 1971, Niagara Mohawk was authorized to operate the facility at steady-state power levels up to a maximum of 1850 megawatts (thermal).

3. By order of the Commission, dated February 2, 1971, Niagara Mohawk's Provisional Operating License was extended until August 22, 1972.

4. Filed with this application is an exhibit entitled "Technical Supplement to Application for Conversion from Provisional Operating License to Full-Term Operating License." This supplement, among other things, describes in detail the following matters:

a. The operating history of the plant to date;

b. Matters discussed in the ACRS letters of April 17, 1969, June 19, 1970 and February 6, 1971; and

c. A review of the informational requirements of the Commission's Regulations, including both the effective and proposed appendices to Part 50, in order to demonstrate to the Commission that this facility can qualify for a Full-Term Operating License.

5. Accompanying this application is an Environmental Report for Licensee's Unit 1.

Niagara Mohawk believes that these documents support the Application for a Full-Term Operating License.

Communications in connection with the application should be addressed to:

Mr. Thomas J. Brosnan  
Vice President and Chief Engineer  
Niagara Mohawk Power Corporation  
300 Erie Boulevard West  
Syracuse, New York 13202

and

LeBoeuf, Lamb, Leiby & MacRae,  
 Attn: Arvin E. Upton, Esq.  
 1821 Jefferson Place, N.W.  
 Washington, D.C. 20036

Niagara Mohawk notes that Section 2.109 of the Commission's Rules of Practice operates to continue its Provisional Operating License in effect until a final determination on this application has been made.

WHEREFORE, Niagara Mohawk requests that:

1. The Commission convert Niagara Mohawk's Provisional Operating License No. DPR-17 to a Full-Term Operating License, to have expiration date of April 11, 2005, unless superseded or extended by the Commission prior to such expiration date; or

2. In the event that the Application to Convert the Licensee's Provisional Operating License to a Full-Term Operating License is not accepted for filing, the Commission extend the termination date of the Provisional Operating License for such time as may be reasonably required for the Licensee to perfect the filing of the Application to Convert the Provisional Operating License to a Full-Term Operating License and have that perfected application fully processed and determined.

Respectfully submitted,

NIAGARA MOHAWK POWER CORPORATION

By Thomas J. Brosnan  
 Thomas J. Brosnan  
 Vice President and Chief Engineer
