Mr. Daniel R. Muller  
Assistant Director for  
Environmental Projects  
Directorate of Licensing  
U.S. Atomic Energy Commission  
Washington, D. C. 20545

Dear Mr. Muller:

This is in response to your letter of 5 July 1973 addressed to Assistant Secretary Davis concerning the draft environmental impact statement for Nine Mile Point Nuclear Station, Unit 1, Lake Ontario, Oswego County, New York.

The concerned operating administrations and staff of the Department of Transportation have reviewed the material submitted. Noted in the review by the Federal Railroad Administration is the following:

"The Federal Railroad Administration commented at some length (6 Feb. 1973) regarding the applicants request for licensing of Nine Mile Nuclear Station Unit No. 2. Our continual concern over the inductive coordination problem with railroad signal and communication lines is also applicable to this more recent statement for Unit No. 1."

The U. S. Coast Guard commented as follows:

"It is noted that there may be a necessity to mark the intake and discharge points. It is recommended that the applicant contact Commander, Ninth Coast Guard District (oan) at 1240 E. Ninth Street, Cleveland, Ohio, 44199, for further amplification."

The Department of Transportation has no further comments to offer on this draft statement. We have no objection to the project, nor to its implementation. The final statement, however, should address the concern of the Federal Railroad Administration and the Coast Guard.

The opportunity for the Department of Transportation to review this draft environmental impact statement for Nine Mile Point Nuclear Station, Unit 1 is appreciated.

Sincerely,

R. I. PRICE  
Acting Chief, Office of Marine  
Environment and Systems
