Re: United States v. EnergySolutions, Inc., et al., No. 16-cv-10156-SLR
(D. Del.)

Dear Joe:

Over the past several days, you have raised concerns about the Antitrust Division's representation of the U.S. Nuclear Regulatory Commission ("NRC") in connection with the ongoing litigation referenced above. As we have reiterated, there is nothing improper about this representation. However, in the interest of moving forward and after consultation with the NRC, effective today, all future communications regarding any issues in connection with this matter should go directly to Andrew Averbach, Solicitor, NRC, who can be reached at (301) 415-1956.

Regards,

Anurag Maheshwary
