Re: Strata Energy Ross In Situ Recovery Project
Source Materials License SUA-1601, Docket No. 040-09091
License Amendment Request – Kendrick Expansion Area Amendment

To Whom It May Concern:

By letter dated March 20, 2015, Strata Energy Inc. (Strata) submitted the referenced license amendment request to allow uranium recovery activities in the Kendrick Expansion Area (KEA) (ML15096A142). Due to current market conditions in the uranium industry, Strata finds it necessary to request that NRC suspend all review activities related to this amendment request. Strata will review this request in six (6) months and notify NRC if there is any change. This request is not intended to affect the NRC staff review of other amendment requests pending before the agency.

Thank you for your consideration of this request. If you have any questions, please contact me at (307) 467-5995 or mgriffin@stratawyo.com.

Sincerely,
Strata Energy, Inc.
