Subject: Reminder: Nuclear Materials License Renewal is Due to the NRC By August 31, 2017

Please be advised that your Nuclear Materials License 40-29268-01, will expire on August 31, 2017. In order to prevent termination of your license, you MUST submit your renewal application so that it is received by the NRC no later than August 31, 2017. If you need to fax in your request in order to meet the submission deadline, you may fax it, to my attention, to 817-200-1083; and follow up with a hard copy through the mail. If your renewal request is not received by COB August 31, 2017, your license will, subsequently, expire, and you will have to divest yourself of any radioactive material before the expiration date, or commit to not using the radioactive material in NRC jurisdiction. If you make the commitment to not use the radioactive material in NRC jurisdiction, please give us a timeline of submitting a new license application (with applicable fee) or NRC Form 314, Certificate of Disposition of Material.

Please keep in mind, that no fees need to be sent with a renewal application.

For your convenience, I have attached NUREG 1556, Consolidated Guidance About Materials Licenses, and NRC Form 313, Application for Materials License. <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/>

If you have questions or need additional information, please feel free to contact me.
