NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

February 15, 2017

MEMORANDUM TO: Michael T. Markley, Chief
Plant Licensing Branch II-1
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation

FROM: G. Edward Miller, Project Manager
Special Projects and Process Branch
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation 

SUBJECT: SUMMARY OF FEBRUARY 2, 2017, PUBLIC MEETING REGARDING
LICENSE AMENDMENT REQUEST TO IMPLEMENT RISK-INFORMED
TECHNICAL SPECIFICATION COMPLETION TIMES (CAC
NOS. ME9555 AND ME9556)

On February 2, 2017, the U. S. Nuclear Regulatory Commission (NRC) staff held a public teleconference¹ with staff from Southern Nuclear Operating Company, Inc. (SNC or the licensee). The purpose of the call was to discuss SNC's license amendment request to implement risk-informed Technical Specification Completion Times for the Vogtle Electric Generating Plant, Units 1 and 2. Specifically, the discussion was focused on draft request for additional information (RAI) question 10 that was provided to SNC on January 24, 2017.²

The discussion of the RAI was a follow-on to a public meeting held on January 26, 2017,³ where it was identified that additional interactions were needed to clarify the NRC staff's information need with respect to RAI 10. During the call, the NRC provided additional information about what information would be useful to the NRC staff in evaluating defense-in-depth for the identified TS actions. In response, SNC provided a discussion system configurations and how the plant would respond in various scenarios.

Although better understanding was reached, at the conclusion of the meeting, both parties agreed that additional interactions would be necessary. Another public interaction would be planned at a later date and noticed via the normal process.

¹ The original meeting notice is available via the Agencywide Documents Access and Management System (ADAMS) under Accession No. ML17033A018.

² The draft RAI is available under ADAMS Accession No. ML17027A018.

³ The meeting summary for the January 26, 2017, meeting is available under ADAMS Accession No. ML17030A428.

No regulatory decisions were made at the meeting. Following the discussion, an opportunity was afforded to any other participants who wished to ask questions or make comments. No questions or comments were received.
