Division of Nuclear Materials Safety
U.S. Nuclear Regulatory Commission Region IV
1600 E. Lamar Blvd.
Arlington, Texas 76011-4511
Attention: Michael Vasquez

Mr. Vasquez:

I originally contacted you on the 7th of January 2017 about a potential source abandonment for Shell Offshore Inc. on the "Noble Bully 1", Well no; OCS-G 33744 001 ST00BP01, located in Mississippi Canyon Block 567. Baker Hughes license number is 17-27437-01.

The sources were successfully retrieved out of the hole on January 11, 2017 after several more attempts.

Should you have any questions, please give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read "John A. Yunker", written over a horizontal line.
