TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 0613, "Power Reactor Construction Inspection Reports," has been revised to provide directions regarding multiple examples of the same finding, amending inspection reports, retaining proprietary information, communicating regulatory determinations or actions not established in accordance with applicable processes, and updated Minor/More-Than-Minor screening guidance. Aligned the finding summary and four part write-up requirements, requirements to performance deficiency screening when documenting TE violations without findings, and removed the requirement to list more than six documents reviewed in a sample in the report attachment, as well as cover letter directions already in IMC 0612, Exhibit 4.
