Subject: Possession Limits for I-125 and Pd-103 brachytherapy sources

Discussion:

The current amendment (65) has I-125 and Pd-103 listed together under 35.400 with a total possession limit of both isotopes of 1.0 Ci. In amendment 66, the 2 isotopes will be listed separately. The licensee stated that the possession limit for I-125 seeds should be 0.5 Ci and Pd-103 should be 0.5 Ci.

Action Required: Process amendment removing Song Wang, as requested, as AMP and specify separate possession limits for I-125 and Pd 103
