Subject: License Amendment Request

Discussion: Miller contacted Dr. Willis for clarification regarding his license amendment request. He asked for clarification on the request to “update” the authorized users and Dr. Willis stated that all the authorized users should be replaced by the names presented in the amendment request. Miller also identified that the current request for 100 millicuries would trigger the requirement for financial assurance for decommissioning. Miller discussed possible options with Dr. Willis and he decided to be authorized for 50 millicuries of H-3 and 95 millicuries of carbon-14.
