Date: Friday, February 10, 2017 11:42:00 AM

Hello Chris

This email is to acknowledge your letter 17-003 dated January 30, 2017 which transmitted the annual summary of changes required by 10 CFR 70.72(d)(2) as well as the ISA update required by 10 CFR 70.72(d)(3).

In accordance with the Staff Requirements Memorandum for SECY-16-009, "Recommendations resulting from the Integrated Prioritization and Re-Baselining of Agency Activities" (ML16104A158), the Headquarters licensing staff will no longer be performing a detailed review of these documents.

Therefore, no Cost Activity Code (CAC) number will be opened. A detailed review would be performed by Region II inspectors as they execute the Permanent Plant Modifications inspection module IP88070. This module is tentatively scheduled for October, 2017.

If you have any questions, just ask.

A copy of this email will be made publically available in ADAMS.
