Maha Srinivasan, M.S.
Health Physicist & Radiation Safety Officer
Wayne State University
Office of Environmental Health and Safety
5425 Woodward Ave.
Ste. 300
Detroit, MI 48202

Dear Ms. Srinivasan:

In letter and NRC Form 314 dated November 14, 2016 (ML16319A385, including attachments), you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate NRC License No. 21-00741-14. In your letter dated January 4, 2017 (ML17024A226), you submitted additional information confirming that all residual licensed material from Wayne State University had been removed from its Detroit, Michigan locations, listed on the referenced license – such that any remaining residual radioactivity is within the limits of Title 10 of the *Code of Federal Regulations* Part 20, Subpart E, and is ALARA.

Based on its review, the staff has concluded that all licensable radioactive material has been removed from the Wayne State University facilities located at Gordon Scott Hall, Room 329, 540 East Canfield; Michigan Cancer Foundation, Room EB 12, 110 East Warren; and Life Science, Room 025, 5000 Gullen Mall, Detroit, Michigan and residual radioactive material attributable to licensed activities does not exceed current NRC criteria. Based on these conclusions no further remediation or actions with respect to NRC regulated material are required. Your facilities are suitable for unrestricted use and NRC license number 21-00741-14 is hereby terminated.

In accordance with 10 CFR 2.390, a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. If you have any questions, please contact me at (630) 829-9887.

Sincerely,

A handwritten signature in black ink that reads "Sara A. Forster". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Sara A. Forster, M.S.
Health Physicist
