SUBJECT: COMSECY-17-0001: Status of Research and Test Reactor License Renewal Reviews and Request for Closure of Related Tasking

Approved X Disapproved Abstain Not Participating

COMMENTS: Below X Attached None

The NRC staff has completed its review of 16 of the 19 research and test reactor (RTR) license renewal applications that were pending in late 2008. The review of the one remaining active application is on track to be completed in the near future. Therefore, I approve the staff's request to close the internal tracking system task related to completing the RTR license renewal application reviews.
