Mr. Boyce H. Grier, Director  
United States Nuclear Regulatory  
Commission - Region I  
631 Park Avenue  
King of Prussia, Pennsylvania 19406

RE: Docket No. 50-220  
LER 80-05

Dear Mr. Grier:

In accordance with Nine Mile Point Nuclear Station Unit #1 Technical Specifications, we hereby submit the following Licensee Event Report:

80-05 which is being submitted in accordance with Section 6.9.2a(9), Performance of structures, systems, or components that requires remedial action or corrective measures to prevent operation in a manner less conservative than assumed in the accident analyses in the safety analyses in the safety analysis report or technical specifications bases; or discovery during plant life of conditions not specifically considered in the safety analysis report or technical specifications that require remedial action or corrective measures to prevent the existence of development of an unsafe condition.

This report was completed in the format designated in NUREG-0161, dated July 1977.

Very truly yours,

*James Bartlett*
