Washington, D.C. 20555

Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Dear Mr. Denton:

Following the discovery of intergranular stress corrosion cracking at Nine Mile point Unit 1, an interdisciplinary Task Force of industry experts was established. This Task Force investigated various attributes of the intergranular stress corrosion cracking phenomena. The attached "Pipe Crack Task Force Report" documents the results of these investigations and is provided for your information.

In addition, copies of the referenced report have been forwarded under separate cover to Messrs. Vollmer and Collins. Copies of the report have been previously provided to Messrs. Vassallo and Hazelton of your staff.

Very truly yours,

C. V. Mangan

C. V. Mangan
Vice President
Nuclear Engineering and Licensing

4. $\frac{1}{2} \times \frac{3}{4} = \frac{3}{8}$

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

[illegible]

2010 10 10 10 10 10

1. The first of these is the fact that the United States has a large and growing population of people who are not citizens of the United States. This is a result of the large number of people who have immigrated to the United States in recent years, and the fact that many of these people are not naturalized citizens.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific information required.
