Dear Ms. Lone Hill,

Thank you for meeting with the U.S. Nuclear Regulatory Commission (NRC) staff via teleconference on January 31, 2017 to continue consultation regarding a proposed tribal survey at the Dewey-Burdock In Situ Uranium Recovery (ISR) Project site. The NRC staff has drafted the attached meeting summary for your review. We would be happy to consider any comments you provide on the meeting summary, and ask that you provide them by Wednesday, February 22, 2017. We plan to include this summary in our next status update to the Atomic Safety and Licensing Board on March 1, 2017. If you will require additional time for your review, please let me know.

Sincerely,

*Kellee L. Jamerson*
