Desc: Hi-

I am looking for copies of the approved material license applications for Trijicon (21-19874-02E) and Cammenga (21-26460-02E) and TruGlo (42-23889-01E). Specifically, we are looking for their tritium insertion drawings, prototype testing processes as they relate to gun sights. We utilize some of their services to install tritium and want to confirm what their requirements are with the NRC. Thank you so much for your help.
