NOTES:	3 3		

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in the context of public administration and financial management.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for robust data collection systems that can handle large volumes of information and provide reliable results. The document also discusses the importance of data security and privacy, ensuring that sensitive information is protected from unauthorized access.

3. The third part of the document focuses on the analysis and interpretation of the collected data. It describes the various statistical and analytical techniques used to identify trends, patterns, and correlations. The document also discusses the importance of contextualizing the data, taking into account the specific circumstances and conditions under which the data was collected.

4. The fourth part of the document discusses the application of the findings to policy-making and decision-making. It emphasizes that the results of the analysis should be used to inform the development of policies and programs that address the identified issues and challenges. The document also discusses the importance of monitoring and evaluation, ensuring that the implemented policies and programs are effective and efficient.

5. The fifth part of the document discusses the challenges and limitations of the research process. It identifies the various factors that can affect the quality and reliability of the data, such as sampling bias, measurement error, and data availability. The document also discusses the importance of acknowledging these limitations and providing a clear and honest assessment of the findings.

6. The sixth part of the document discusses the future directions of the research. It identifies the areas that need further investigation and the methods that should be used to address these areas. The document also discusses the importance of collaboration and partnership, involving stakeholders from different sectors and disciplines in the research process.

7. The seventh part of the document discusses the conclusion and recommendations. It summarizes the main findings of the research and provides clear and actionable recommendations for the future. The document also discusses the importance of ongoing monitoring and evaluation, ensuring that the implemented policies and programs continue to be effective and efficient.

8. The eighth part of the document discusses the appendix and references. It includes a list of the sources used in the research and a detailed description of the data and materials used. The document also includes a list of the authors and their affiliations.

9. The ninth part of the document discusses the acknowledgments. It expresses gratitude to the individuals and organizations that provided support and assistance during the research process. The document also includes a list of the names of the individuals who contributed to the research.

10. The tenth part of the document discusses the disclaimer. It states that the findings of the research are only valid for the specific context and conditions under which the data was collected. The document also states that the authors do not accept any responsibility for the use of the findings in any other context.

SUSQUEHANNA STEAM ELECTRIC STATION
EMERGENCY PLAN, REVISION 9
ER 100450 FILE 896-04
PLA-2577

Dear Dr. Murley:

Attached is Revision 9 to the Susquehanna Steam Electric Station Emergency Plan. In accordance with the requirements of 10CFR50.54 (q), the changes have been made without commission approval as they do not decrease the effectiveness of the plan and the plan as changed continues to meet the applicable requirements of Appendix E to 10CFR50. A summary of changes with appropriate justifications/explanations is provided below:

<u>Section</u>	<u>Justification/Explanation</u>
1.0	The definition for Emergency Plan Boundary was added to the list of definitions. Editorial change to item enumeration from Item 1.19 to end of section.
4.2.5	Editorial change to correct typographical error.
Table 4.1 (Page 29)	Editorial change deleting the word "causal."
Table 5.3 (Page 2)	Editorial change to correct typographical error.
6.6	The specific number of sirens has been deleted from the text. This information is provided in Figure 6.2.

Dr. Thomas E. Murley

<u>Section</u>	<u>Justification/Explanation</u>
Figure 6.1	Figure has been revised to delete the site Emergency Planning Boundary as this is described in Section 1.0 and to add the On Site Monitoring Team Boundary.
Figure 6.2	Figure 6.2, Alert Notification System, has been updated.
7.1.2.1.1	Editorial change to correct typographical error.
7.1.3.1	Administrative changes deleting example, references and the clarification regarding use of duplicate copies of records in the TSC.
7.1.3.5.1	Editorial change deleting the word "plant."
7.1.3.5.5	Deleted reference to facsimile machine. Although the facsimile equipment remains available in the TSC, it is no longer relied upon to relay data.
7.1.3.8.1	Editorial change deleting reference to video copier for SPDS data (Item #2). Video copiers are provided for SPDS and PCS data. (See new Item #3).
7.1.3.9	Editorial change deleting the word "current" in two items.
7.2.2.3.2.2	Deleted reference to Figure 7.7. This figure has been deleted from the plan.
7.2.2.4.2	Editorial change to add acronyms.
7.2.2.4.4	Deleted reference to facsimile machine. Although the facsimile equipment remains available in the EOF, it is no longer relied upon to relay data.
7.2.2.5	Deleted reference to Figure 7.8 in three paragraphs. This figure has been deleted from the plan.
7.2.3.2	Editorial change reflecting revised figure enumeration.

Section

Justification/Explanation

7.2.3.3.1

The radiological conditions utilized to determine the need for EOF evacuation have been revised to reflect EP-IP-030. PING Monitor is no longer utilized in the EOF.

7.7

Editorial change to correct typographical error.

Figures 7.7, 7.8
7.9, 7.10

Figures 7.7 and 7.8 have been deleted from the plan. Figure 7.7 represented the HVAC system conceptual design. Figure 7.8 is not necessary as description provided by the text material is adequate. Figures 7.9 and 7.10 have been renumbered as Figures 7.7 and 7.8.

Enclosures 15 and 16
to Appendix D

Editorial changes to correct typographical errors.

Should you have any questions regarding these changes, please contact us.

Very truly yours,

H. W. Keiser
Vice President-Nuclear Operations
