Perry, OH 44081-0097

**SUBJECT: PERRY NUCLEAR POWER PLANT – SCHEDULE CONFIRMATION
OF INITIAL LICENSE REEXAMINATION FOR JULY 2017**

Dear Mr. Hamilton:

In a letter dated May 19, 2017, (L-17-178), your staff requested we schedule an initial license operator reexamination in July 2017. We have tentatively scheduled the requested reexamination to occur during the week of July 17, 2017. On-site validation of the reexamination will tentatively occur at the beginning of that same week, July 17, 2017. In the unlikely event that we are unable to support the reexamination during the scheduled week, we will inform you immediately upon discovery of such conditions and make arrangements to administer the reexamination at a mutually acceptable date.

We understand that one Senior Reactor Operator Upgrade applicant will be participating in the reexamination, and that your staff will develop the reexamination. Please inform us at your earliest opportunity if you discover you need to change the scheduled date for the reexamination.

A supplementary letter will be sent to your training department approximately 45 days prior to the reexamination. The letter will outline the examination security expectations, list the materials required by the U.S. Nuclear Regulatory Commission (NRC) to conduct the reexamination, and reconfirm the reexamination dates. If you have any questions concerning this information, please contact Mr. Randal Baker of my staff at 630-829-9871.

This letter and its enclosure will be available for public inspection and copying at <http://www.nrc.gov/reading-rm/adams.html> and at the NRC Public Document Room in accordance with Title 10 of the *Code of Federal Regulations* 2.390, "Public Inspections, Exemptions, Requests for Withholding."

Sincerely,

/RA/

Robert J. Orlikowski, Chief
Operations Branch
Division of Reactor Safety
