Good Morning Ty,

I apologize for not providing you with this information yesterday. I got caught up with some other issues. I have finished reviewing GE's PCG submission for acceptance and have determined that it reasonably includes all necessary information to conduct a detailed technical review.

Please let me know if you have any further questions.

Thanks,

Reggie

This is just a reminder that I'll need your acceptance of the PCG by COB 6/12. Thanks

Ty
