Office of Nuclear Reactor Regulation  
Attention: Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Eisenhut:

Re: St. Lucie Unit Nos. 1 and 2  
Docket Nos. 50-335 and 50-389  
Offsite Dose Calculation Manual (ODCM)

By letter L-82-200, dated May 13, 1982, Florida Power and Light Company submitted the proposed ODCM for St. Lucie 1 for your review and approval. However, changes were necessary to the proposed ODCM as a result of NRC's review of the ODCM for St. Lucie Unit 2.

Attached is the revised ODCM for St. Lucie Units 1 and 2. This submittal supercedes the May 13, 1982 submittal. It is our understanding that NRC has found the attached ODCM acceptable for St. Lucie Unit 2, however, your formal review and approval is required in accordance with the proposed Radiological Effluent Technical Specifications.

Very truly yours,

Robert E. Uhrig  
Vice President  
Advanced Systems & Technology
