

April 2, 1979

Dear Sirs:

Nuclear energy is a serious threat to human safety. I urge you to take steps to keep Rochester Gas & Electric's Genoa nuclear plant closed, at least until federal authorities can assure the safety of the plant's systems.

I see this as your clear responsibility. In light of the present situation in Pennsylvania, I expect

Sup
798447475

to see prompt action on
your part to close or
keep closed any questionable
nuclear facilities.

Very sincerely,

Katherine K. Johnson
7 Sumner Park
Rochester, N.Y. 14607
