Operating Reactors Branch No. 2
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Systematic Evaluation Program - Seismic Review
R.E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Ziemann:

As indicated in my letter of July 3, 1979, certain additional information relating to the Systematic Evaluation Program - Seismic Review for Ginna Station was scheduled to be submitted about July 15, 1979.

Accordingly, please find the following information enclosed:

1. Tank and foundation drawings for the diesel generator air tanks
2. Tank and foundation drawings for the boric acid storage tanks
3. Tank and foundation drawings for the reactor refueling water storage tank
4. A summary of the seismic analysis of the following equipment located inside containment
 - a. reactor coolant pump
 - b. pressurizer
 - c. steam generator
 - d. full length control rod drive mechanism
 - e. control rod drive mechanism seismic support.

Subsequent to submittal of my July 3, 1979 letter, we have received IE Bulletin No. 79-14 concerning seismic analysis for as-built safety-related piping systems. The required date for response to this bulletin has made it necessary for us to review all of our current engineering manpower commitments including those related to your request relative to the SEP seismic

evaluation. We will provide you a revised schedule for furnishing the information requested on or about July 24, 1979.

As requested by your Staff, eight copies of this letter and enclosures are being supplied for your use. If there are any questions regarding this material, please contact us.

Very truly yours,

L. D. White, Jr.
