

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION
BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

In the Matter of)

ROCHESTER GAS AND ELECTRIC CORPORATION)

Docket No. 50-244

(R.E. Ginna Nuclear Power Plant,)
Unit 1))

STATUS REPORT

The New York State Energy Office responds as follows to the April 29, 1980 Order Requesting Status Reports issued by the Atomic Safety and Licensing Board ("the Board"):

1. On January 5, 1973, the New York State Atomic Energy Council filed a petition on behalf of the State of New York to intervene in this proceeding as an interested State. The petition was granted by order of the Board dated June 18, 1973.

2. Pursuant to Chapters 719 and 720 of the Laws of 1976 of the State of New York, the New York State Atomic Energy Council was abolished and its functions, powers and duties were transferred to the newly created State Energy Office. On February 17, 1977, notice was provided to the Board and to all parties that the State Energy Office was continuing to participate in the proceedings in place of the abolished Atomic Energy Council.

3. The New York State Energy Office has not raised any contentions in this proceeding but may identify areas of concern based upon our review of the Three Mile Island accident and the issues relating thereto. SEO also reserves the right to raise contentions following completion of the Standard Evaluation Program (SEP)

8006110225

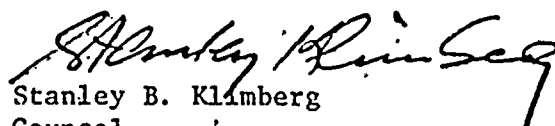

DS03
30/1

being conducted by the NRC for this facility and SEO's review of the SEP evaluation reports.

4. The New York State Energy Office recommends the following course of action to be followed by the Board:

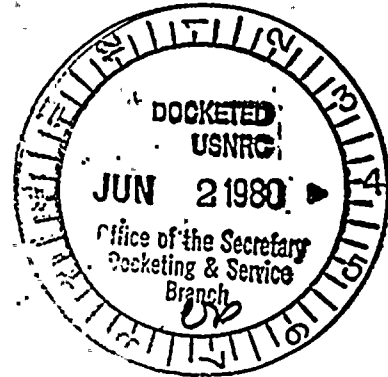

- a. Issue an order permitting all parties to identify any additional contentions based upon new information developed subsequent to the November 22, 1972 Notice of Opportunity for Hearing published in the Federal Register, which initiated this proceeding.
- b. Hold a prehearing conference to reidentify parties, discuss and clarify contentions and discuss a schedule for discovery.
- c. Rule on the admissibility of any contentions and establish a schedule for discovery.
- d. Any schedule should be established consistent with the requirements of the parties who have submitted contentions.

Respectfully submitted,

Stanley B. Klimberg
Counsel
New York State Energy Office
